SUMMARY

Full Stack Developer (React, TypeScript, Node.js, PostgreSQL) with 5+ years across SaaS, crowdfunding, and government platforms — from Digital India's national scholarship portal to revenue-critical e-commerce tooling. Led a React 16 to 18 + TypeScript migration, unified authentication across 3 production apps, and ran a 5-developer team with direct client ownership.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), Redux, React Query, Zustand, HTML5, CSS3, SCSS, Tailwind CSS, Material UI, Ant Design, Framer Motion

Backend & Databases: Node.js, Express.js, REST APIs, OAuth 2.0/OIDC, RBAC, PostgreSQL, MongoDB, Redis, BullMQ

Cloud & DevOps: AWS (S3, CloudFront), Docker, CI/CD, GitHub Actions, Vite, New Relic (APM), Git

Testing & Practices: Jest, Playwright, Test-Driven Development (TDD), Agile/Scrum, Code Review, System Design, Mentoring

WORK EXPERIENCE

Brandlock — *Software Engineering Consultant*

Aug 2024 – Present

- Own full-stack delivery across 5 repos (React/TS, Node.js/Express, PostgreSQL) — ~1,000 commits, top-2 contributor on 4 of 5.
 - Migrated the client dashboard from React 16 to React 18 + TypeScript on Vite (React Query, Zustand, Tailwind), cutting bundle size 35%; rebuilt the Express backend in TypeScript with strict layering, closing known SQL-injection vectors platform-wide.
 - Unified 3 duplicate auth implementations into a contract-first npm package family (v2.10.x) serving 3 production apps — OAuth2/OIDC SSO, MFA, magic links, and RBAC — shipped flag-gated with full security hardening.
 - Built the Coupon Template Builder from zero as a shared React/TS library (drag-and-drop canvas, 7-state publish flow), driving an 18% **engagement lift**; shipped dashboards (80% **faster renders**) and self-serve onboarding (+15% **conversion**).
 - Strengthened platform reliability with BullMQ queues, Redis caching, S3/CloudFront pipelines, New Relic APM, and CI/CD; eliminated stale-chunk deploy failures with a deployment-registry system while mentoring across data, QA, and design.
- Tech:** React · TypeScript · Node.js · Express · PostgreSQL · Redis · React Query · Zustand · Vite · BullMQ · AWS · Docker · CI/CD

Trigyn Technologies — *Software Engineer* (rehired)

Oct 2023 – Jul 2024

- Returned at the company's request to deliver critical functionality for the Visvesvaraya PhD Scheme portal (Ministry of Electronics & IT, Govt. of India) under fixed government deadlines.
- Built modules for national health-data management and disease surveillance on the WHO NVBDCP (National Vector Borne Disease Control Programme) platform.

Impactguru — *Software Engineer II*

May 2023 – Oct 2023

- Raised KYC document-upload completion from 6% to 65% by re-architecting the KYC module with improved UX and error handling.
- Reduced fundraiser-creation failures 10% and cut listing and performance-page load times 8% via frontend and API optimization.
- Built end-to-end fundraiser creation flows for NGOs, personal causes, and creative projects; integrated the Sendbird SDK for in-app user-admin chat, delivering in 2-week Agile sprints.

Trigyn Technologies — *Full Stack Software Engineer*

Dec 2021 – Apr 2023

- Led a 5-developer team building Digital India Corporation's nationwide scholarship platform; architected National Single Sign-On (NSSO/Meri Pehchaan) authentication, proposal workflows, payment gateway, and student portal.
- Managed direct client communications for requirements gathering, technical guidance, and iterative releases; promoted from Associate based on project leadership.

Lirctek — *Frontend Engineer*

Jul 2021 – Dec 2021

- Rebuilt the Electronic Logging Device (ELD) module — 9 submodules spanning live map tracking, data visualization, time management, and compliance reporting — for a fleet-management platform serving trucking companies.
- Led responsive-design implementation across the platform and supported technical hiring through candidate interviews.

PROJECTS

VikinX — *Founder & Developer* · vikinx.in

Ongoing

- Motorcycle community platform built on Next.js 14 — separate rider and admin portals covering ride tracking, route management, community administration, and integrated safety features.

EDUCATION

B.Sc. Information Technology — Mumbai University

2019 – 2021

Diploma, Computer Engineering — Maharashtra State Board of Technical Education

2016 – 2019
